

## **IDAHO SENSITIVE SPECIES LIST - PLANTS**

### **Forest Service-Region 1, February 2011**

#### List Information:

- “Type” is the USFS R1 Species at Risk Category
  - Type 2 = Rangewide imperilment
  - Type 3 = Regional/State imperilment
- “Rank”
  - “Global Rank” is the overall status of a species is regarded as its “global” status. This range-wide assessment of condition is referred to as its global conservation status rank (G-rank)
  - “State Rank” is the condition of a species within a particular state

#### **Andromeda polifolia**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

#### **Asplenium trichomanes**

Type 3 Regional/State imperilment

Global Rank is G3 Vulnerable

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

#### **Aster junciformis**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

#### **Astragalus microcystis**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is SH Possible Extirpated

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle historically known to occur, but not recently documented

**Astragalus paysonii**

Type 2

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Bitterroot known

Nez Perce known

**Betula pumila**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Blechnum spicant**

Type 3 Regional/State imperilment

Global Rank is G5 Stable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce known

**Botrychium ascendens**

Type 2

Global Rank is G2 Imperiled through G3 Vulnerable

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Botrychium crenulatum**

Type 2

Global Rank is G3 Vulnerable

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater suspected

Idaho Panhandle known

**Botrychium lanceolatum var. lanceolatum**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure, T4 Apparently Secure  
State Rank is S3 Vulnerable  
Forest Where Species is Known or Suspected to Occur  
    Clearwater known  
    Idaho Panhandle known  
    Nez Perce known

**Botrychium lineare**

Type 2  
Global Rank is G1 Critically Imperiled  
State Rank is SH Unranked  
Forest Where Species is Known or Suspected to Occur  
    Clearwater suspected  
    Idaho Panhandle historically known to occur, but not recently documented  
    Nez Perce suspected

**Botrychium minganense**

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure  
State Rank is S3 Vulnerable  
Forest Where Species is Known or Suspected to Occur  
    Clearwater known  
    Idaho Panhandle known  
    Nez Perce suspected

**Botrychium montanum**

Type 2  
Global Rank is G3 Vulnerable  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
    Clearwater known  
    Nez Perce known

**Botrychium paradoxum**

Type 2  
Global Rank is G2 Imperiled  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
    Idaho Panhandle known

**Botrychium pedunculosum**

Type 2

Global Rank is G2 Imperiled and G3 Vulnerable

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Botrychium pinnatum**

Type 3 Regional/State imperilment

Global Rank is G4? Apparently Secure?

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

Nez Perce known

**Botrychium simplex**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce known

**Buxbaumia aphylla**

Type 3 Regional/State imperilment

Global Rank is G4 Apparently Secure and G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater suspected

Idaho Panhandle suspected

Nez Perce known

**Buxbaumia viridis**

Type 3 Regional/State imperilment

Global Rank is G4 Apparently Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce known

**Calochortus nitidus**

Type 2

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce known

**Cardamine constancei**

Type 2

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce known

**Carex buxbaumii**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

Nez Perce known

**Carex chordorrhiza**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Carex comosa**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Carex flava**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S3 Vulnerable  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Carex leptalea**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Clearwater known  
Idaho Panhandle known

**Carex livida**

Type3  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Carex paupercula**

Type 3 Regional/State imperilment  
Global Rank is G5 Stable  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Bitterroot suspected  
Idaho Panhandle known

**Carex sychnocephala**

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Nez Perce known

***Cicuta bulbifera***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

***Cladonia andereggii***

Type 2  
Global Rank is G1 Critically Imperiled  
State Rank is Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Clearwater known

***Cornus nuttallii***

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Clearwater known  
Nez Perce known

***Cypripedium fasciculatum***

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure  
State Rank is S3 Vulnerable  
Forest Where Species is Known or Suspected to Occur  
Clearwater known  
Idaho Panhandle known  
Nez Perce known

***Cypripedium parviflorum* var. *pubescens***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure, T5 Secure  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Dasynotus daubenmirei**

Type 2

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce known

**Douglasia idahoensis**

Type 2

Global Rank is G2 Imperiled

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Bitterroot suspected

Nez Perce known

**Drosera intermedia**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Dryopteris cristata**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is 2 Imperiled

Forest Where Species is Known or Suspected to Occur

Bitterroot suspected

Idaho Panhandle known

**Epilobium palustre**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Epipactis gigantea**

Type 2

Global Rank is G3 Vulnerable through G4 Apparently Stable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Bitterroot known

Idaho Panhandle suspected

Nez Perce known

**Eriophorum viridicarinatum**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Gaultheria hispidula**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Grimmia brittoniae**

Type 2

Global Rank is G2 Imperiled

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Grindelia howellii**

Type 2

Global Rank is G3 Vulnerable

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Halimolobos perplexa var. perplexa**

Type 2

Global Rank is G4 Apparently Secure, T2 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Nez Perce

**Haplopappus hirtus var. sonchifolius**

Type 2

Global Rank is G4 Apparently Secure through G5 Secure, T3 Vulnerable

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

**Hookeria lucens**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle historically known to occur, but not recently documented

Nez Perce suspected

**Hypericum majus**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Iris versicolor**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Lomatium salmoniflorum**

Type 2

Global Rank is G3 Vulnerable

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

**Lycopodiella inundata**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Lycopodium dendroideum**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Meesia longiseta**

Type 3 Regional/State imperilment

Global Rank is G4? Apparently Secure?

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Mimulus salsinoides**

Type 3 Regional/State imperilment

Global Rank is G5

State Rank is S1

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

**Mimulus ampliatus**

Type 2

Global Rank is G1 Critically Imperiled

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce known

**Mimulus hymenophyllus**

Type 2

Global Rank is G1 Critically Imperiled

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Nez Perce known

**Pentagramma triangularis ssp. triangularis**

Type 3 Regional/State imperilment

Global Rank is G5 Secure, T5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce suspected

**Petasites frigidus var. palmatus**

Type 3 Regional/State imperilment

Global Rank is G5 Secure, T5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

**Phegopteris connectilis**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle

***Polypodium glycyrrhiza***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Clearwater known

***Polystichum braunii***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

***Rhizomnium nudum***

Type 3 Regional/State imperilment  
Global Rank is G4 Imperiled  
State Rank is S1 Critically Imperiled  
Forest Where Species is Known or Suspected to Occur  
Clearwater known  
Idaho Panhandle known  
Nez Perce suspectec

***Rhynchospora alba***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S3 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

***Saliz candida***

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Salix pedicellaris**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Scheuchzeria palustris**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Schoenolectus subterminalis**

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure and G5 Secure  
State Rank is S3 Vulnerable  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle

**Sphagnum mendocinum**

Type 3 Regional/State imperilment  
Global Rank is G4 Apparently Secure  
State Rank is SH Possibly Extirpated  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known  
Nez Perce known

**Streptopus streptopoides**

Type 3 Regional/State imperilment  
Global Rank is G5 Secure  
State Rank is S2 Imperiled  
Forest Where Species is Known or Suspected to Occur  
Idaho Panhandle known

**Synthyris platycarpa**

Type 2

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce known

**Thelypteris nevadensis**

Type 3 Regional/State imperilment

Global Rank is G4 Apparently Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater know

Idaho Panhandle suspected

**Triantha occidentalis ssp. brevistyla**

Type 3 Regional/State imperilment

Global Rank is G5 Secure, T4 Apparently Secure

State Rank is S1 Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce suspected

**Trichophorum alpinum**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S1 Critically Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Trientalis arctica**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Trifolium douglasii**

Type 2

Global Rank is G3 Vulnerable

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Clearwater known

Nez Perce suspected

**Trifolium plumosum var. amplifolium**

Type 2

Global Rank is G4 Apparently Secure, T2 Imperiled

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Nez Perce known

**Vaccinium oxycoccos**

Type 3 Regional/State imperilment

Global Rank is G5 Secure

State Rank is S2 Imperiled

Forest Where Species is Known or Suspected to Occur

Idaho Panhandle known

**Waldsteinia idahoensis**

Type 3 Regional/State imperilment

Global Rank is G3 Vulnerable

State Rank is S3 Vulnerable

Forest Where Species is Known or Suspected to Occur

Clearwater known

Idaho Panhandle known

Nez Perce known
